

Access controls worksheet

	Note(s)	Issue(s)	Recommendation(s)
Authorization /authentication	Objective: Identify information that can help identify the threat. • The payroll event was performed by Robert Taylor Jr., a former legal contractor. • The incident occurred on 10/03/2023 at 8:29:57 AM from the device Up2-NoGud with IP address 152.207.255.255.	Objective: Identify authorization issues based on the notes. • Robert Taylor Jr. had Admin-level access despite being a former contractor. • His account should not have been active, as his end date was 12/27/2019.	Objective: Recommend controls to prevent future incidents. • Implement a formal offboarding process to immediately disable or remove access when employees or contractors leave the company. • Apply the principle of least privilege, ensuring only necessary personnel have admin access to sensitive systems such as payroll.
